

Sponsorship Options

Join the SiliconPV 2024 Conference in conjunction with nPV and bifiPV Workshops as a Sponsor

Over the last >10 years, the SiliconPV Conference has become one of the world's top PV conferences where in-depth new scientific and technological insights in crystalline Si-based PV are presented – and where plenty of space is given for interaction and for building networks.

It is becoming more and more important to enhance the energy transition and develop technologies that will be available for everyone and everywhere, have low cost, and can be manufactured locally. Silicon based PV is the technology to hasten this transition with a solar manufacturing industry that should be soon deployed at the TW level and significantly contribute to the global warming mitigation

SiliconPV fosters the necessary innovations for this large-scale deployment of photovoltaics .The conference topics cover the value chain from materials up to and including modules and integrates important aspects such as reliability, sustainability and circularity. A particular attention is paid to the new challenges raised by the TW scale manufacturing of cells and modules. Of course, the progress made with tandems and multijunction PV devices with silicon bottom cells will have a prominent position in the conference program.

Again, Silicon PV continues the fruitful cooperation with the nPV and bifiPV Workshops – giving the opportunity to have three events in one!

The conference identity is well established in the PV community and gathers about 300 people from all over the world, mixing students, scientists, technologists, and PV experts from industry.

Becoming a sponsor is a great way to highlight your company's presence as an active and important player in the field of silicon photovoltaics. The event offers several sponsorship opportunities helping you to find the most effective way to connect with our attendees and your target group.

Sponsorship boosts your firm's visibility, builds loyalty, and shows your commitment to the photovoltaics community. Secure your sponsorship advantages now!

ORGANIZER

PARTNERS

Become a sponsor of SiliconPV 2024!

SiliconPV
14th International Conference
on Crystalline Silicon Photovoltaics **2024**

This is what makes your sponsorship worthwhile:

You are visible

Your recognition will increase through the conference website

You are impressive

Show who you are and share your latest research, innovations and services

You are on an expansion track

Grow your network by presenting your company to the SiliconPV, nPV and bifiPV world

You are a magnet

Attract ambitious young researchers to your company and develop new partnerships

Take advantage of new ways of networking and profit from the opportunity to communicate with a global and future-oriented audience.

Our Participants

Junior and senior researchers and academics from leading institutes and universities

R&D experts, technologists, and engineers of the major PV companies worldwide

Industry decision-makers and project developers

Representatives from companies at every level of the supply chain

We look forward to working with you!
