

SilicoNPV 2026 - Instructions for Oral Presentations – Update March 26

As the SilicoNPV 2026 Conference together with the bifIPV Workshop are getting closer, we would like to provide you with guidance on how to prepare and submit your oral presentation.

This document contains important information for the oral presenters. Please read these instructions carefully and follow them accordingly.

Registration is mandatory for all presenters (on-site or online). If an author (or co-author) is not registered, the presentation will not be included in the conference program and the paper is not eligible for publication in the proceedings.

Check Your Presentation Time and Schedule

- The detailed [program](#) showing the time of your session can be found on the conference website. All times are shown in Eastern European Summer Time (UTC+3).
- Regular oral presentations are **15 min including 3 minutes of discussion time (12+3 min)**. Please make sure to strictly keep this time limit. *(Presentation times for keynotes deviate from that. Please check the conference program for your speaking time.)*

No Presentation Upload

- If you are presenting on-site in Ankara, please hand in your pptx 16:9 presentation on a USB **flash drive to the media upload desk at the venue** at least 1 hour before your session starts
- If you are presenting online, start the presentation at home and share your screen in zoom.
- Your PPTX presentation should not exceed **100 MB**.

Formatting Instructions for Presentations On-Site in Ankara

- Presentations in .ppt format and .pptx format will be accepted. If your presentation was created with an Apple device, please test the file on a Windows PC to make sure that it is correctly displayed.
- Avoid any external links in your presentation. The presentation computers do not have an internet connection.
- Non-standard fonts should be embedded.
- All images and graphs must be embedded without links.
- Past experience shows that video clips often cause technical difficulties. If you intend to use video clips, please double-check at the media upload desk.
- You will not be able to display your presentation directly from your laptop computer or memory stick. All presentations must be handed to the media upload desk on site in advance.

Additional Instructions

- Please meet your session chairs inside the conference room at least 10 minutes prior to the beginning of your oral session and familiarize yourself with the technical equipment.

- Please upload a short bio / introduction text (2-3 sentences) to your profile in Fourwaves, so the session chairs may properly introduce you.

Internal Area

- You may upload a PDF version of your presentation which will be visible for all participants in the internal area. The PDF can be an adjusted version of the PPT file. Uploads will be possible from March. This does not replace the presentation on site or online.

Conference Registration

- Only abstracts which have been presented at the conference online or on-site will be allowed for submission of a paper for the conference proceedings.

If you have any questions, don't hesitate to send an email to info@siliconpv.com.

We are looking forward to your presentation!

Kind regards,

The SilicoNPV and bifiPV Organizing Team
